A vain little bird,  
Was eagerly heard:  
"Do witt, do witt, whoo!"  
A tiny giddy young bird  
With a mental whirr.  
Her pure wide open threw.

"With a title, rare,  
And a coat threadbare,  
I come, howe to to—"  
She ne'er raised a count—  
For a sum small amount  
For a party million or two.

## PHYSICIANS NOW ORDER IT.

### Paine's Celery Compound the One Spring Remedy That Makes People Well.

Physicians Prescribe It, Use It, and Advise People to take It in Preference to Anything Else in April and May, Because It Purifies the Blood, Feeds the Brain and Strengthens the Nerves.

Paine's Celery Compound is not a patent medicine.

No class of professional men are more conservative, more careful in giving advice, or more painstaking in finding out the real facts of a case than physicians.

Their recommendation in matters with which they are conversant is trusted. When physicians of knowledge not only prescribe and say what also bring home Paine's Celery Compound for their own families, there can be no doubt of its high standing in the eyes of medical men in general.

This is what busy, successful practitioners are doing these spring days all over the country.

Paine's Celery Compound is prepared, as they all well know, from the formula of the foremost physician of this century, Professor Edward P. Phelps, M. D., LL. D., of Dartmouth Medical School.

Among medical men there is an absolute certainty as to just what Paine's Celery Compound is capable of doing. The careful study of the vast number of cases where it has made people well has been published in the medical journals of the country.

Paine's Celery Compound stands today as the one thoroughly authenticated remedy for weakness and debility due to malnutrition of the nervous system and impure blood.

This hard-working, earnest class of professional men have never been slow in accepting Paine's Celery Compound.

They declare that it gives the needed body every possible benefit, and back to a healthy condition. It cures nervous ticks, heart palpitation, general lack of strength, and all forms of weakness; rests and restores the jaded, fatigued brain and nerves, because it provides for the abnormal waste of these parts by unusually prompt supply of appropriate nerve food. It purifies the blood in nothing else can do.

Bills have been sent out to build two new packets immediately. They will be built at the pattern of the Iron Queen and very fast.

The machinery of the burned boat will probably be recovered.

If every man and woman plagued with frequent headaches, and every business man made anxious by pain at the base of the brain and neuralgia twinges, would take Paine's Celery Compound, would the world be lightened of a vast deal of misery that ought never to be borne.

The most advanced and thoughtful of the medical men in the 10th century has awarded Paine's Celery Compound to meet and overcome these troubles that are due to ill-fed, ill-regulated nerves and poor, thin blood.

N. X. Leonard, M. D., of Charlestown, Mass., whose portrait appears above, one of the ablest physicians in the Boston District, a man of character and influence, says:

"After using Paine's Celery Compound for four or five years in my general practice, I can cheerfully recommend it. For catarrh of head or stomach, for intestinal grippe, for many cases it is a blessing. For chronic rheumatism it does give relief. Torpid liver, general debility, constipation, pains in stomach and loss of appetite it relieves, and is the best of remedies in general nervous prostration. I recommend it to many of my patients, believing, as I do, in its real merits. I believe it is a public blessing to invalids, and, as yet, not fully appreciated."

C. F. Flynn, M. D., a well-known Michigan physician, is but one of hundreds who prescribe Paine's Celery Compound because it cures. Writing in the Warren in that state he says: "I use the Paine's Celery Compound freely in my practice, it is a nervous tonic, blood purifier and general tonic in all debilitated conditions of the system. I find it a fine thing for patients recovering from the grippe, especially old people."

J. H. Hanaford of Reading, Mass., whose writings in The Household, Health and Home, and other journals of National circulation, have endeared him to thousands, says: "I have used Paine's Celery Compound personally with much benefit. I prescribe it with excellent results."

J. H. Thomas, M. D., 320 Liberty street, Pittsburgh, Penn., says: "For several months I had been suffering from rheumatism. I had taken all the usual remedies with no real benefit. I took a bottle of Paine's Celery Compound and found my self much improved. The second bottle is nearly gone and I consider myself cured."

W. H. Hibbard, M. D., of Poultney, Vt., writes: "I was run down from repeated attacks of the grippe, and my stomach, bowels, and kidneys were out of order. I had no strength, energy or ambition to think or act, and was excessively nervous and irritable. After taking the first bottle of Paine's Celery Compound I felt better. The third bottle restored me to my usual health and strength, and I feel ten years younger than before."

Dr. William Brown of Fredericksburg, Kan., writes: "It has wonderfully improved my general health."

W. Allen Hubbard, M. D., Boston, Mass., writes: "I have prescribed the remedy in a number of cases where the blood was impoverished and the nerves weakened. The results have been so satisfactory that I do not hesitate to induce Paine's Celery Compound."

Similar testimonial evidence by hundreds might be quoted. The high scientific authorities of A. H. Key, A. M. D., of Yardley, Penn., have made his statements authority on matters pertaining to health. J. W. Ferguson, M. D., of Thayer, Kan., tells how it cured him of dyspepsia, etc., etc. The sum total of the testimony of such men as these, as well as of the more celebrated physicians whose letters have been previously published in these columns, is that Paine's Celery Compound makes people well!

## TRADE REVIEW.

Commercial Failures in the First Quarter.

Reports From Chief Centers of Wholesale Trade Encouraging.

The Occurrence of Failure in April Instead of March, as Usual, Had Bad Effect on the Retail Trade of the Country for the Latter Month.

New York, April 6.—R. G. Durst & Co., in their Review of the Trade Situation say:

"Commercial failures in the first quarter of 1895 numbered 3,802, with liabilities of \$17,513,683, averaging \$12,600 each. There were also 35 bank failures, with liabilities of \$1,532,000 or about \$36,000 each. If both were lumped together, as in other reports they are, the aggregate of liabilities here reported would be \$60,496,239, or about \$12,580,000, which is one more than the total in any other report for the quarter. But Durst's review not only gives commercial and banking failures separately, but shows that of the former 651 were of manufacturing concerns, with liabilities of \$1,000,000 each, while 3,107 were of trading concerns, with liabilities of \$5,595,894, averaging about \$8,600 each. The decrease in the number of commercial failures in comparison with the first quarter of last year is but .2 per cent, while the decrease in liabilities is \$16,000,000, or 25.4 per cent. About 80 per cent were in manufacturing and 20 per cent in trading. The industrial section of the report and its value as an encouragement is largely due to the separation of banking failures, in which the liabilities were \$12,682,537, against only \$3,482,542 last year."

Events of the highest importance given this week show the condition of retail trade in March throughout the country and the distribution of goods of final consumers in comparison with the same months in 1894 and 1893. The returns fail to give, but can be condensed into a single comparison, and in view of widely differing conditions in different sections and branches, might in that form be the less useful, there is great danger in generalizing. In general districts marked improvement over 1894 is realized, though on the whole trade is smaller than in 1893. Everywhere also the occurrence of Easter in March has been a factor, and it is found to account for much difference in the volume of retail trade, especially in dry goods and millinery, and the severe weather and backwardness of the season also retarded recovery. While in New England, in fact, in quantities of goods sold are nearly as large as last year, but on the whole, smaller than in 1893, the main difference in comparison with 1894 is found in the general decline of prices, which made trade in value smaller even where it is clearly as large or larger in quantity.

"Accounts from the chief centers of wholesale trade are also encouraging this week. There is not only a hopeful sign at all points, but the Spanish officials here to see that the rifles and cartridges will eventually reach the revolutionists' hands."

### FOUR TRAMPS DEAD.

A Freight Train on the Chicago and Alton Road Wrecked.

ALTON, Ill., April 6.—Four tramps were almost instantly killed and fifteen others badly injured in a freight wreck on the Chicago & Alton railroad, near this city. It is believed that the cause of the wreck was caused by a broken truck, which allowed a dozen cars to pile up in a heap. It is estimated that over seventy-five tramps were standing on the roof of the train when it came out of front of them and head. The injured men were brought to the hospital in this city, and the impounded hold at East Alton.

At the inquiry Friday afternoon the name of the engineer was not known, but it was David Heffey, of Waterloo, Wis., and Frank Harman, Philadelphia, Pa.; Charles Bell, Springfield, Ill.; Henry Blilits, Kansas City.

Four of the tramps were injured, and the others were dead. Charles Eastard, Lima, O.; Otto Schreiter, Argentina; Theodore Hunt, St. Paul, Minn.; Thomas Cope, St. Louis; Harry Willis, Dallas; and Ed Adair, San Francisco.

James Hart, no residence, Jameson, Fall River, Mass.; John Howard, Cincinnati; O. Robert Seel, New York; Winfield Garrison, Martinsville, O. Several of the injured are not expected to live.

### GOOD LUCK.

A Poor Young Woman Excites a Rich Widower, Administration, and is Left a Million Dollars.

POT JERVIS, N. Y., April 6.—Agnes Epplewhite is a poor young woman who earned her living during the summer months by musical recitals at the piano. She was born in Chicago. One of the guests last year was Mrs. Hendricks, a wealthy Philadelphia invalid. She took a fancy to Miss Epplewhite, who often played for her. When Agnes was noticed by Mrs. Hendricks, she was in trouble with the law because of her vagabond ways. Mrs. Hendricks had died and left Miss Epplewhite \$1,000,000.

Mrs. Hendricks was a paralytic, and the numerous little kindnesses she showed to the poor girl excited the sympathy of the public. Agnes' fate, however, was not so favorable. She had a son, and he was greatly admired, made a soft spot in the widow's heart and the big fortune left the girl is the result.

### ARMS AND CARTRIDGES

Focus on a New Year's Stagger Bound for Columbus or for Cuba.

New York, April 6.—Information received the Spanish consul that a lot of arms and ammunition destined for Cuba had been sent to the United States.

It was shipped from this port Friday. This information was transmitted to Collector Kilbreth with the request from the consul that he prevent such shipment if possible.

Exhibit of arms has been furnished to the government officials to prove Spain's emissaries in America in connection with the proposed shipment of arms from the United States to Cuba.

The insurgents must have aid soon or must capitulate to the government forces. The crisis is at hand.

### WANT HELP.

The Cuban Insurgents Must Have It, and Soon,

Or They Will Be Compelled to Capitulate to the Government.

They Hope to Receive Aid From the United States. Consult Williams in Danger of Assault—Reported That Spain Has Asked for His Recall.

CRAZIUS, Cal., April 6.—Developments which came to light Friday indicate that the insurgents, who hope to receive aid from the United States, are not so wildly visionary as might be supposed. Consul William has at least refused one request upon which Spain seems liable to insist.

Great excitement was caused on the streets of this place Friday when it was learned that the Cuban government had sent a note to the United States consul, Ramon Williams, in sympathy with the revolutionists and that it was believed that Consul Williams was willing to aid the rebels with his influence.

Following upon the heels of this report from authentic sources came another that Spain has asked the United States government to remove Consul Williams. It is believed that the request was made by Spain fully a week ago, and that Secretary Gresham has not taken prompt action in the matter has greatly encouraged the revolutionists.

Nothing but the protection of being under the protection of the United States has saved Consul Williams from assassination. Many threats of that kind have been made by those who are in sympathy with the existing government, and the conduct of such an act would mean trouble with the United States. Spain has induced the royalists to take every precaution to prevent anything of this kind from happening.

Exhibit of arms has been furnished to the government officials to prove Spain's emissaries in America in connection with the proposed shipment of arms from the United States to Cuba.

The insurgents must have aid soon or must capitulate to the government forces. The crisis is at hand.

### Mrs. Williams Visited by Her Husband.

COLUMBUS, O., April 6.—W. H. Williams, husband of the woman who was the victim of the shooting at the park, visited the woman in prison Friday. Mrs. Williams exhibited emotion for the first time since the double tragedy. She took her arms about her husband's neck and sobbed. Williams assured her that he had no enemies, and that he knew she didn't know what she was doing. Husband and wife discussed the future care of Annie, the child who was spared, and Williams arranged to have the woman's food sent from a neighboring restaurant.

Squire Hook therewith offered this resolution:

Resolved, That we adopt the recommendations contained in the resolution presented by the Committee of State, and for the purpose of carrying out and recommendations into operation, we accept such turnpike roads as have been built by the turnpike commissioners, as provided by Section 5, Chapter 1112 of the Session Acts of 1866, which is "An Act to enable the people of Mason County to provide free turnpikes in Mason county."

Dr. John A. Reed, by permission, addressed the Court at some length and with great force upon the numerous burrs that oppress our people through the toll system on our turnpikes.

The Doctor was followed by Thomas A. Davis, Hon. E. L. Worthington and L. W. Galbraith in favor of free travel, and Mr. John B. Holton in favor of tollgates, when Squire Hook was offered a substitute for the Board of Health's resolution, which was lost by this vote.
